Re: Applicant Hugh Schaeffer's proposal for a 4 story/ 46 unit building with no parking

We are concerned that a building with this occupancy capacity in this neighborhood would not have any parking for the building. Parking in this neighborhood is already getting more and more difficult with the recent apartments that have been added on 32nd Ave NE. We strongly urge you to require that they provide a parking garage as this could potentially add at least 46 more cars to the block.

Respectfully,  
Jeanette and David Calderon  
Owners, Shangri-la Apartments
